Progress towards the Sustainable Development Goals

Report of the Secretary-General

Supplementary Information

Summary

The following information is supplementary to the Report of the Secretary-General: Progress towards the Sustainable Development Goals (E/2021/58). It contains the Statistical Annex of global and regional data for the global indicators for the Sustainable Development Goals and targets, adopted by the Statistical Commission at its forty-eighth session in March 2017, by the United Nations Economic and Social Council in June 2017 and the General Assembly in July 2017. The official indicator list includes the global indicator framework as contained in A/RES/71/313, the refinements agreed by the Statistical Commission at its 49th session in March 2018 (E/CN.3/2018/2, Annex II) and 50th session in March 2019 (E/CN.3/2019/2, Annex II), changes from the 2020 Comprehensive Review (E/CN.3/2020/2, Annex II) and refinements (E/CN.3/2020/2, Annex III) from the 51st session in March 2020, and refinements from the 52nd session in March 2021 (E/CN.3/2021/2, Annex). The indicators presented in the Annex are those for which data are available. This Statistical Annex is available electronically in English at the following website: <unstats.un.org/sdgs/>.

Explanatory notes

Country or area / Composition of regions

The designations employed and the presentation of the material in this annex do not imply the expression of any opinion whatsoever on the part of the Secretariat of the United Nations concerning the legal status of any country, territory, city or area or of its authorities. The term 'country' as used in the text of this annex also refers, as appropriate, to territories and areas. Except where indicated, regional groupings are based on United Nations geographical regions, with some modifications necessary to create, to the extent possible, homogeneous groups of countries for analysis and presentation. The information about the regional groupings used for the Sustainable Development Goals Progress Report (E/2021/58) is available at https://unstats.un.org/sdgs/indicators/regional-groups/>.

There is no established convention for the designation of "developed" and "developing" countries or areas in the United Nations system. Where shown, the expression "developed regions" comprises Japan in Asia, Canada and the United States in northern America, Australia and New Zealand in Oceania, and Europe – including Israel and Cyprus. For monitoring indicators related to "developing countries," in general, data for all countries located in "developing regions" are being aggregated.

Methodological notes

The concepts and definitions, method of computation and other reference metadata of each indicator presented in this document are available at the Global SDG indicators metadata repository at https://unstats.un.org/sdgs/metadata/>.

Symbols and conventions used in the tables

- . A point is used to indicate decimals.
- A hyphen between years, for example, 2010-2015, indicates the full period involved, including the beginning and end years.
- / A slash indicates a financial year, school year, or crop year, for example, 2014/15.
- ... Data are not available or not applicable.
- * Data are provisional, estimated, or include a major revision.

A comma is used as a thousand separator; for example, 1,000 is one thousand. Subtotals and percentages in the tables do not necessarily add to totals because of rounding.

Supplementary Information

Statistical Annex: Global and regional data for Sustainable Development Goal indicators

Goal 1

End poverty in all its forms everywhere

Target 1.1

By 2030, eradicate extreme poverty for all people everywhere, currently measured as people living on less than \$1.25 a day

Indicator 1.1.1

Proportion of the population living below the international poverty line by sex, age, employment status and geographic location $(urban/rural)^I$

(a) Proportion of population below the international poverty line of US\$1.90 per day, both sexes

Target 1.4

By 2030, ensure that all men and women, in particular the poor and the vulnerable, have equal rights to economic resources, as well as access to basic services, ownership and control over land and other forms of property, inheritance, natural resources, appropriate new technology and financial services, including microfinance

Indicator 1.4.1 Proportion of population living in households with access to basic services

(a) Proportion of population using basic drinking water services (Percentage)

Target 1.5

By 2030, build the resilience of the poor and those in vulnerable situations and reduce their exposure and vulnerability to climate-related extreme events and other economic, social and environmental shocks and disasters

Indicator 1.5.3

Number of countries that adopt and implement national disaster risk reduction strategies in line with the Sendai Framework for Disaster Risk Reduction 2015–2030

Number of countries that reported having a National Disaster Risk Reduction (DRR) Strategy which is aligned to the Sendai Framework

Regions	20201
World	118
Sub-Saharan Africa	25
Northern Africa and Western Asia	14
Central and Southern Asia	12
Eastern and South-Eastern Asia	9
Latin America and the Caribbean	18
Australia and New Zealand	2
Oceania (exc. Australia and New Zealand)	12
Europe and Northern America	26

¹The value represents the number of countries that reported (over 2015-2020 period) having a National DRR Strategy which is aligned to the Sendai Framework to a certain extent.

Source: United Nations Office for Disaster Risk Reduction (UNDRR) as per the Sendai Framework Monitor.

Target 1.a

Ensure significant mobilization of resources from a variety of sources, including through enhanced development cooperation, in order to provide adequate and predictable means for developing countries, in particular least developed countries, to implement programmes and policies to end poverty in all its dimensions

Indicator 1.a.1

Total official development assistance grants from all donors that focus on poverty reduction as a share of the recipient country's gross national income

Official development assistance grants for poverty reduction as proportion of GNI¹

 $\textbf{Source:} \ \ \textbf{The Organisation for Economic Co-operation and Development (OECD)}.$

Goal 2

End hunger, achieve food security and improved nutrition and promote sustainable agriculture

Target 2.1

By 2030, end hunger and ensure access by all people, in particular the poor and people in vulnerable situations, including infants, to safe, nutritious and sufficient food all year round

Indicator 2.1.1 Prevalence of undernourishment

(a) Prevalence of undernourishment

Target 2.2

By 2030, end all forms of malnutrition, including achieving, by 2025, the internationally agreed targets on stunting and wasting in children under 5 years of age, and address the nutritional needs of adolescent girls, pregnant and lactating women and older persons

Indicator 2.2.1

Prevalence of stunting (height for age <-2 standard deviation from the median of the World Health Organization (WHO) Child Growth Standards) among children under 5 years of age

Proportion of children under 5 years of age who are stunted $(HAZ < -2)^{1}$

(Percentage)

¹Defined as the prevalence of haemoglobin concentrations below 120 g/L for non-pregnant women.

Source: Global Health Observatory (GHO), World Health Organization (WHO).

Target 2.5

By 2020, maintain the genetic diversity of seeds, cultivated plants and farmed and domesticated animals and their related wild species, including through soundly managed and diversified seed and plant banks at the national, regional and international levels, and promote access to and fair and equitable sharing of benefits arising from the utilization of genetic resources and associated traditional knowledge, as internationally agreed

Indicator 2.5.1 Number of (a) plant and (b) animal genetic resources for food and agriculture secured in either medium- or long-term conservation facilities

(a) Plant genetic resources accessions stored ex situ

The Agriculture Orientation Index (AOI) for Government Expenditures is defined as the Agriculture Share of Government Expenditures, divided by the Agriculture Share of GDP, where Agriculture refers to the agriculture, forestry, fishing and hunting sector. An AOI smaller than 1 indicates that the share of Government expenditure devoted to agriculture is smaller than the GDP share of the sector, while an AOI greater than 1 indicates that public expenditure in agriculture is relatively higher than the sector's GDP share.

Note: Combined Budgetary, Central and General Government Expenditure, whichever the highest level of govt data is available.

Source: Food and Agriculture Organisation of the United Nations (FAO).

Indicator 2.a.2 Total official flows (official development assistance plus other official flows) to the agriculture sector

Total official flows (gross disbursements) to the agriculture sector

(Millions of constant 2019 United States dollars)

Regions	20001	2005	2010	2015	2019

Goal 3 Ensure healthy lives and promote well-being for all at all ages

Target 3.1 By 2030, reduce the global maternal mortality ratio to less than 70 per 100,000 live births

Indicator 3.1.1 Maternal mortality ratio

Maternal mortality ratio

(Maternal deaths per 100,000 live births)

Indicator 3.3.4 Hepatitis B incidence per 100,000 population

Prevalence of hepatitis B surface antigen (HBsAg) in children under 5 years of age (Percentage)

Regions	2015	2018	2020
World	1.34 (0.91-2.18)	0.91 (0.80-1.02)	0.94 (0.82-1.06)
Sub-Saharan Africa	3.23 (2.22-4.97)	2.76 (2.35-3.28)	2.66 (2.21-3.23)
Northern Africa and Western Asia	0.84 (0.57-1.22)	0.48 (0.40-0.57)	0.47 (0.37-0.60)
Central and Southern Asia	0.85 (0.62-1.15)	0.25 (0.21-0.29)	0.31 (0.26-0.36)
Eastern and South-Eastern Asia	0.95 (0.61-2.11)	0.32 (0.27-0.46)	0.48 (0.41-0.60)
Latin America and the Caribbean	0.20 (0.10-0.69)	0.08 (0.05-0.17)	0.09 (0.06-0.16)
Oceania	2.21 (1.66-2.85)	1.86 (1.59-2.19)	1.29 (1.09-1.52)
Australia and New Zealand	0.33 (0.22-0.49)	0.17 (0.14-0.20)	0.23 (0.19-0.27)
Europe and Northern America	0.30 (0.20-0.55)	0.16 (0.13-0.21)	0.21 (0.17-0.28)

Note: Credible intervals are provided in parenthesis. Values are calculated based on a conditional autoregressive (CAR) model accounting for spatial and economic correlations between similar countries. The model uses data from well sampled countries to estimate prevalence in more datapoor countries taking into account effects such as sex, age and vaccination status.

Target 3.7

By 2030, ensure universal access to sexual and reproductive health-care services, including for family planning, information and education, and the integration of reproductive health into national strategies and programmes

Indicator 3.7.1

Proportion of women of reproductive age (aged 15-49 years) who have their need for family planning satisfied with modern methods

Proportion of women of reproductive age (aged 15-49 years) who have their need for family planning satisfied with modern methods

Target 3.b

Support the research and development of vaccines and medicines for the communicable and non-communicable diseases that primarily affect developing countries, provide access to affordable essential medicines and vaccines, in accordance with the Doha Declaration on the TRIPS Agreement and Public Health, which affirms the right of developing countries to use to the full the provisions in the Agreement on Trade-Related Aspects of Intellectual Property Rights regarding flexibilities to protect public health, and, in particular, provide access to medicines for all

Indicator 3.b.1 Proportion of the target population covered by all vaccines included in their national programme

(a) Proportion of the target population with access to 3 doses of diphtheria-tetanus-pertussis (DTP3)

Target 4.2

By 2030, ensure that all girls and boys have access to quality early childhood development, care and pre-primary education so that they are ready for primary education

Indicator 4.2.1

Proportion of children aged 24–59 months who are developmentally on track in health, learning and psychosocial well-being, by sex

(a) Proportion of children aged 36-59 months who are developmentally on track in at least three of the following domains: literacy-numeracy, physical development, social-emotional development and learning, both sexes¹

(Percentage)

Regions	2020
World ² (76 countries, 31 per cent population coverage)	71.5
Sub-Saharan Africa (26 countries, 60 per cent population coverage)	60.3
Western Asia (7 countries, 54 per cent population coverage)	76.3
South-Eastern Asia (6 countries, 68 per cent population coverage)	88.0
Small island developing States (16 countries, 63 per cent population coverage)	77.0

¹The number of countries with comparable survey data included in the regional aggregations and regional population coverage of children aged 36-59 months are presented in parentheses. Estimates for girls and boys are not directly comparable to the total, as they are based on a subset of countries with available data by sex.

Note: Based on the Demographic and Health Surveys (DHS), Multiple Indicator Cluster Surveys (MICS) and other national surveys conducted in the 2012-2020 period.

Source: United Nations Children's Fund (UNICEF) global databases, 2021.

(b) Proportion of children aged 36-59 months who are developmentally on track in at least three of the following domains: literacy-numeracy, physical development, social-emotional development and learning, by sex^1

(Percentage)

	2020		
Regions	Girls	Boys	
World ² (74 countries, 27 per cent population coverage)	70.7	67.8	
Sub-Saharan Africa (26 countries, 60 per cent population coverage)	61.7	58.9

Target 4.6

By 2030, ensure that all youth and a substantial proportion of adults, both men and women, achieve literacy and numeracy

Indicator 4.6.1

Proportion of population in a given age group achieving at least a fixed level of proficiency in functional (a) literacy and (b) numeracy skills, by sex

Proportion of population aged 16-65 achieving at least a fixed level of proficiency in functional skills, by sex and type of skill

	2020^{1}								
Regions		Literacy		Numeracy					
	Total	Female	Male	Total	Female	Male			
World	75.8	75.6	75.9	71.9	69.6	74.1

Target 4.b

By 2020, substantially expand globally the number of scholarships available to developing countries, in particular least developed countries, small island developing States and African countries, for enrolment in higher education, including vocational training and information and communications technology, technical, engineering and scientific programmes, in developed countries and other developing countries

Indicator 4.b.1 Volume of official development assistance flows for scholarships by sector and type of study

Volume of official development assistance (gross disbursements) for scholarships (Millions of constant 2019 United States dollars)

Regions	2006	2010	2015	2019
Total ODA	431.3	1,277.1	1,216.8	1,677.2
Sub-Saharan Africa	35.9	111.5	134.7	243.6

Goal 5 Achieve gender equality and empower all women and girls

Target 5.1

End all forms of discrimination against all women and girls everywhere

Indicator 5.1.1

Whether or not legal frameworks are in place to promote, enforce and monitor equality and non-discrimination on the basis of sex

Legal frameworks that promote, enforce and monitor gender equality

(Percentage)

	2020				
Regions	Area 1: overarching legal frameworks and public life	frameworks Area 2: violence and econon		Area 4: marriage and family	
World	70.9	78.0	76.7	79.1	
Sub-Saharan Africa	65.5	65.6	66.3	76.1

Target 5.c

Adopt and strengthen sound policies and enforceable legislation for the promotion of gender equality and the empowerment of all women and girls at all levels

Indicator 5.c.1

Proportion of countries with systems to track and make public allocations for gender equality and women's empowerment

Proportion of countries with systems to track and make public allocations for gender equality and women's empowerment¹

(Percentage)

Regions	2018
World (69 countries and areas)	19
Sub-Saharan Africa (27 countries)	11
Central and Southern Asia (4 countries)	75
Eastern and South-Eastern Asia (6 countries)	33
Latin America and the Caribbean (9 countries)	11
Oceania (exc. Australia and New Zealand) (10 countries and areas)	20
Europe and Northern America (6 countries and areas)	0

The number of countries used to calculate the global and regional values are presented in parentheses. Population coverage is not applicable.

Note: (1) Data are derived from an assessment of country systems to track allocations for gender equality and women's empowerment, based on reporting on three criteria collected through a questionnaire; (2) The proportion represents the percent of reporting countries that fully meet the three criteria for the indicator; (3) Data is collected through the Global Partnership for Effective Development Cooperation.

Goal 8

Promote sustained, inclusive and sustainable economic growth, full and productive employment and decent work for all

Target 8.1

Sustain per capita economic growth in accordance with national circumstances and, in particular, at least 7 per cent gross domestic product growth per annum in the least developed countries

Indicator 8.1.1 Annual growth rate of real GDP per capita

Annual growth rate of real GDP per capita

(Percentage)

Target 8.4

Improve progressively, through 2030, global resource efficiency in consumption and production and endeavour to decouple economic growth from environmental degradation, in accordance with the 10-Year Framework of Programmes on Sustainable Consumption and Production, with developed countries taking the lead

Indicator 8.4.1

Material footprint, material footprint per capita, and material footprint per GDP¹

(a) Material footprint

(Millions of tonnes)

Regions	2000	2005	2010	2015	2017
World	53,826.4	64,573.2	76,532.8	87,435.2	91,973.9

Source: World Environment Situation Room, United Nations Environment Programme (UNEP); Global Material Flows Database, International Resource Panel.

(b) Material footprint per capita

(Tonnes per capita)

Regions	2000	2005	2010	2015	2017
World	8.8	9.9	11.0	11.8	12.2

Source: World Environment Situation Room, United Nations Environment Programme (UNEP); Global Material Flows Database, International Resource Panel.

(c) Material footprint per unit of GDP

(Kilograms per unit of constant 2010 United States dollars)

Regions	2000	2005	2010	2015	2017
World	1.08	1.12	1.16	1.16	1.16

Source: World Environment Situation Room, United Nations Environment Programme (UNEP); Global Material Flows Database, International Resource Panel.

Indicator 8.4.2

Domestic material consumption, domestic material consumption per capita, and domestic material consumption per GDP

(a) Domestic material consumption

(Millions of tonnes)

Regions	2000	2005	2010	2015	2017
World	53,686	64,057	76,255	87,334	91,880
Sub-Saharan Africa	2,456	3,007	3,614	3,959	4,187

Central and Southern Asia	6,003	7,121	8,815	10,629	11,237
Central Asia	531	675	793	941	997
Southern Asia	5,472	6,446	8,022	9,687	10,240
Eastern and South-Eastern Asia	17,388	23,380	33,465	40,258	43,258
Eastern Asia	14,275	19,398	28,414	34,722	37,343

¹Material footprint (MF) is the attribution of global material extraction to final domestic demand of a country. It is calculated as the raw material equivalent of imports plus domestic extraction minus raw material equivalents of exports.

Regions	2000	2005	2010	2015	2017
South-Eastern Asia	3,066	3,928	4,988	5,463	5,841

¹ Unemployment rate is calculated as the number of unemployed persons expressed as a percentage of the labour force, where unemployed persons are those who, during the short reference period, were not in employment, were available and seeking employment.

² Statistics on the labour force status of individuals disaggregated by their disability status are not available at the global and regional levels at this stage.

³ Data refer to persons aged 15 and above.

⁴ Adults refer to persons aged 25 and above; youth refers to persons aged 15 to 24 inclusive.

Target 8.8

Protect labour rights and promote safe and secure working environments for all workers, including migrant workers, in particular women migrants, and those in precarious employment

Indicator 8.8.2

Level of national compliance with labour rights (freedom of association and collective bargaining) based on International Labour Organization (ILO) textual sources and national legislation, by sex and migrant status

Level of national compliance with labour rights (freedom of association and collective bargaining) based on International Labour Organization (ILO) textual sources and national legislation

Note: (1) SDG indicator 8.8.2 seeks to measure the level of national compliance with fundamental labour rights (freedom of association and collective bargaining). It is based on six International Labour Organization (ILO) supervisory body textual sources and also on national legislation. National law is not enacted for the purpose of generating a statistical indicator of compliance with fundamental rights, nor were any of the ILO textual sources created for this purpose. Indicator 8.8.2 is compiled from these sources, and its use does not constitute a waiver of the respective ILO Constituents' divergent points of view on the sources' conclusions. (2) SDG indicator 8.8.2 is not intended as a tool to compare compliance among ILO member States. It should specifically be noted that reporting obligations of an ILO member State to the ILO's supervisory system and thus ILO textual sources are different for ratifying and non-ratifying ILO member States. (3) The indicator has a range from 0 to 10, with 0 being the best possible score (indicating higher levels of compliance with freedom of association and collective bargaining rights) and 10 the worst (indicating lower levels of compliance with freedom of association and collective bargaining rights).

Source: International Labour Organization (ILO).

Target 8.9

By 2030, devise and implement policies to promote sustainable tourism that creates jobs and promotes local culture and products

Indicator 8.9.1 Tourism direct GDP as a proportion of total GDP and in growth rate¹

Tourism direct GDP as a proportion of total GDP

(Percentage)

¹The SDG indicator 8.9.1 measures the economic contribution of tourism to a national economy. It relies on the Tourism Satellite Account: Recommended Methodological Framework 2008, an international standard adopted by the UN Statistical Commission and elaborated by UNWTO, OECD and EUROSTAT. Data are collected by UNWTO in coordination with OECD.

Target 9.3

Increase the access of small-scale industrial and other enterprises, in particular in developing countries, to financial services, including affordable credit, and their integration into value chains and markets

Indicator 9.3.2 Proportion of small-scale industries with a loan or line of credit

(a) Proportion of small-scale industries with a loan or line of $credit^1$

Regions	2006-2020
World	29.3
Sub-Saharan Africa	15.7
Northern Africa and Western Asia	23.6
Northern Africa	13.4
Western Asia	27.3
Central and Southern Asia	21.4
Central Asia	19.7
Southern Asia	22.4

Regions	2006-2020
Eastern and South-Eastern Asia	25.1
Eastern Asia	25.1
South-Eastern Asia	25.1
Latin America and the Caribbean	44.2
Oceania	44.9
Oceania (exc. Australia and New Zealand)	44.9
Europe and Northern America	37.2
Europe	37.2
Landlocked developing countries	21.9
Least Developed Countries	18.0
Small island developing States	38.9

¹ Regional averages are computed by taking a simple average of country-level point estimates. For each of the 145 countries where Enterprise Surveys have been conducted during the 2006-2020 period, only the latest available year of survey data in the period is used in this computation. **Source:** World Development Indicators database, the World Bank.

Target 9.4

By 2030, upgrade infrastructure and retrofit industries to make them sustainable, with increased resource-use efficiency and greater adoption of clean and environmentally sound technologies and industrial processes, with all countries taking action in accordance with their respective capabilities

Indicator 9.4.1 CO₂ emission per unit of value added

(a) Total CO₂ emissions - Fuel Combustion¹

(Millions of tonnes of CO₂ – MtCO₂)

Target 9.a

Facilitate sustainable and resilient infrastructure development in developing countries through enhanced financial, technological and technical support to African countries, least developed countries, landlocked developing countries and small island developing States

Indicator 9.a.1 Total official international support (official development assistance plus other official flows) to infrastructure

Total official flows (gross disbursements) for infrastructure (Millions of constant 2019 United States dollars)

 2000^{1} Regions 2005 2010 2015 2019 23,444.1 17,321.7 45,538.0 59,648.0 63,568.9 Total official flows 3,094.2 3,015.1 5,788.1 8,951.5 10,397.4 Sub-Saharan Africa Northern Africa 1,134.2 1,067.8 3,654.2 3,885.5 5,779.8 3,071.2 6,345.6 7,006.0 5,083.5 Western Asia 2,446.6 164.1 1,420.7 1,536.7 409.8 2,509.5 Central Asia 4,534.3 3,443.6 8,483.5 9,538.2 12,909.1 Southern Asia 2,463.9 1,409.9 2,479.4 2,587.7 2,679.5 Eastern Asia 3,487.1 1,982.7 3,584.2 9,950.5 6,209.8 South-Eastern Asia Latin America and the Caribbean 3,343.0 1,481.9 6,765.3 8,452.3 7,369.9

¹Based on commitments.

Target 9.b

Support domestic technology development, research and innovation in developing countries, including by ensuring a conducive policy environment for, inter alia, industrial diversification and value addition to commodities

Indicator 9.b.1
Proportion of medium and high-tech industry value added in total value added

Proportion of medium and high-tech manufacturing value added in total value added (Percentage)

Target 9.c

Significantly increase access to information and communications technology and strive to provide universal and affordable access to the Internet in least developed countries by 2020

Indicator 9.c.1
Proportion of population covered by a mobile network, by technology

(a) Proportion of the population covered by at least a 2G mobile network

(Percentage)

	Oil	67.6	76.3	82.1	82.5
	Textiles	28.6	34.7	40.5	45.1

Note: There is no established convention for the designation of "developed" and "developing" countries or areas in the United Nations system. In common practice, Japan in Asia, Canada and the United States in northern America, Australia and New Zealand in Oceania, and Europe with Israel and Cyprus are considered "developed" regions or areas. Until a definition of developing countries is agreed, aggregated data for this indicator will provisionally include all countries located in "developing regions" for the purposes of monitoring indicators related to "developing countries".

Goal 11

Make cities and human settlements inclusive, safe, resilient and sustainable

Target 11.1

By 2030, ensure access for all to adequate, safe and affordable housing and basic services and upgrade slums

Indicator 11.1.1

Proportion of urban population living in slums, informal settlements or inadequate housing

Proportion of urban population living in slums¹

(Percentage)				
Regions	2000	2014	2016	2018

¹The value represents the number of countries that reported (over 2015-2020 period) having a National DRR Strategy which is aligned to the Sendai Framework to a certain extent.

Source: United Nations Office for Disaster Risk Reduction (UNDRR) as per the Sendai Framework Monitor.

Goal 12 Ensure sustainable consumption and production patterns

Target 12.1

Implement the 10-Year Framework of Programmes on Sustainable Consumption and Production Patterns, all countries taking action, with developed countries taking the lead, taking into account the development and capabilities of developing countries

Indicator 12.1.1

Number of countries developing, adopting or implementing policy instruments aimed at supporting the shift to sustainable consumption and production

(a) Countries with sustainable consumption and production (SCP) national action plans or SCP mainstreamed as a priority or target into national policies

Target 12.4

By 2020, achieve the environmentally sound management of chemicals and all wastes throughout their life cycle, in accordance with agreed international frameworks, and significantly reduce their release to air, water and soil in order to minimize their adverse impacts on human health and the environment

Indicator 12.4.1

Number of parties to international multilateral environmental agreements on hazardous waste, and other chemicals that meet their commitments and obligations in transmitting information as required by each relevant agreement

Parties meeting their commitments and obligations in transmitting information as required by Multilateral Environmental Agreements (MEAs) on hazardous waste, and other chemicals

(Percentage)

¹Year-end value for installed capacity (watts) and mid-year for population. Aggregates only include developing nations in the region. **Source:** IRENA based on IRENA's electricity capacity database and population data from the United Nations World Population Prospects.

Target 12.c

Rationalize inefficient fossil-fuel subsidies that encourage wasteful consumption by removing market distortions, in accordance with national circumstances, including by restructuring taxation and phasing out those harmful subsidies, where they exist, to reflect their environmental impacts, taking fully into account the specific needs and conditions of developing countries and minimizing the possible adverse impacts on their development in a manner that protects the poor and the affected communities

Indicator 12.c.1
Amount of fossil-fuel subsidies (production and consumption) per unit of GDP

(a) Fossil-fuel subsidies as a proportion of GDP (production and consumption)

Regions	2015	2016	2017	2018	2019

Goal 13

Take urgent action to combat climate change and its impacts

Target 13.1

Strengthen resilience and adaptive capacity to climate-related hazards and natural disasters in all countries

Indicator 13.1.2

Number of countries that adopt and implement national disaster risk reduction strategies in line with the Sendai Framework for Disaster Risk Reduction 2015–2030

Number of countries that reported having a National Disaster Risk Reduction (DRR) Strategy which is aligned to the Sendai Framework

(N	um	ber)
_		

Regions	20201
World	118
Sub-Saharan Africa	25
Northern Africa and Western Asia	14
Central and Southern Asia	12
Eastern and South-Eastern Asia	9
Latin America and the Caribbean	18
Australia and New Zealand	2
Oceania (exc. Australia and New Zealand)	12
Europe and Northern America	26

¹The value represents the number of countries that reported (over 2015-2020 period) having a National DRR Strategy which is aligned to the Sendai Framework to a certain extent.

Source: United Nations Office for Disaster Risk Reduction (UNDRR) as per the Sendai Framework Monitor.

Target 13.2

Integrate climate change measures into national policies, strategies and planning

Indicator 13.2.1

Number of countries with nationally determined contributions, long-term strategies, national adaptation plans and adaptation communications, as reported to the secretariat of the United Nations Framework Convention on Climate Change

(a) Number of countries with national communications, non-Annex I Parties

Goal 14

Conserve and sustainably use the oceans, seas and marine resources for sustainable development

Target 14.1

By 2025, prevent and significantly reduce marine pollution of all kinds, in particular from landbased activities, including marine debris and nutrient pollution

Indicator 14.1.1

(a) Index of coastal eutrophication; and (b) plastic debris density

(a.1) Chlorophyll-a deviations, remote sensing

(Percentage)

¹Based on the spatial overlap between polygons for Key Biodiversity Areas from the World Database of key Biodiversity Areas and polygons for protected areas from the World Database on Protected Areas and Other Effective area-based Conservation Measures (OECMs; where available) from the World Database of OECMs.

Note: Figures for each region are calculated as the proportion of each Key Biodiversity Area covered by protected areas and (where available) OECMs, averaged (i.e. calculated as the mean) across all Key Biodiversity Areas within the region.

Source: United Nations Environment Programme's World Conservation Monitoring Centre (UNEP-WCMC), BirdLife International, International Union for Conservation of Nature (IUCN).

Target 14.6

By 2020, prohibit certain forms of fisheries subsidies which contribute to overcapacity and overfishing, eliminate subsidies that contribute to illegal, unreported and unregulated fishing and refrain from introducing new such subsidies, recognizing that appropriate and effective special and differential treatment for developing and least developed countries should be an integral part of the World Trade Organization fisheries subsidies negotiation

Indicator 14.6.1

Degree of implementation of international instruments aiming to combat illegal, unreported and unregulated fishing

Progress by regions in the degree of implementation of international instruments aiming to combat illegal, unreported and unregulated fishing

(Levels of implementation¹)

Regions	2018	2020
World	3	4
Sub-Saharan Africa	4	3
Northern Africa and Western Asia	3	4

¹The values reflect from 1 very low, 2 low, 3 medium, 4 high to 5 very high, the level of implementation of international instruments aiming to combat illegal, unreported and unregulated fishing.

Source: Data based on a country self-reported questionnaire on the implementation of the Code of Conduct for Responsible Fisheries and related instruments, Food and Agriculture Organization of the United Nations (FAO).

Target 14.7

By 2030, increase the economic benefits to Small Island developing States and least developed countries from the sustainable use of marine resources, including through sustainable management of fisheries, aquaculture and tourism

Indicator 14.7.1

Sustainable fisheries as a proportion of GDP in small island developing States, least developed countries and all countries

Sustainable fisheries as a proportion of GDP

(Percentage)

²No, or not enough, reporting States to create an aggregated score for this regional grouping.

Goal 15

Protect, restore and promote sustainable use of terrestrial ecosystems, sustainably manage forests, combat desertification, and halt and reverse land degradation and halt biodiversity loss

Target 15.1

By 2020, ensure the conservation, restoration and sustainable use of terrestrial and inland freshwater ecosystems and their services, in particular forests, wetlands, mountains and drylands, in line with obligations under international agreements

Indicator 15.1.1 Forest area as a proportion of total land area

Forest area as a proportion of total land area

(Percentage)

¹The Red List Index for each region represents an index of aggregate survival probability (the inverse of extinction risk) for all birds, mammals, amphibians, corals and cycads occurring within the region, weighted by the fraction of each species' distribution occurring within the region. It shows how adequately species are conserved or not in the region relative to its potential contribution to global species conservation.

²Lower and upper confidence intervals in parentheses.

Target 16.7

Ensure responsive, inclusive, participatory and representative decision-making at all levels

Indicator 16.7.1

Proportions of positions in national and local institutions, including (a) the legislatures; (b) the public service; and (c) the judiciary, compared to national distributions, by sex, age, persons with disabilities and population groups

(a.1) Ratio for female members of parliaments (ratio of the proportion of women in parliament in the proportion of women in the national population (with the age of eligibility as a lower bound boundary)), by type of chamber¹ (Ratio)

revenue and expenditure classifications, International Monetary Fund (IMF).

Target 17.2

Developed countries to implement fully their official development assistance commitments, including the commitment by many developed countries to achieve the target of 0.7 per cent of gross national income for official development assistance (ODA/GNI) to developing countries and 0.15 to 0.20 per cent of ODA/GNI to least developed countries; ODA providers are encouraged to consider setting a target to provide at least 0.20 per cent of ODA/GNI to least developed countries

Indicator 17.2.1

Net official development assistance, total and to least developed countries, as a proportion of the Organization for Economic Cooperation and Development (OECD) Development Assistance Committee donors' gross national income (GNI)

Total net official development assistance (ODA) flows from DAC donors

(Billions of constant 2019 United States dollars)

Regions	2000	2005	2010	2015	2018	2020
Total net ODA	74.7	121.1	125.9	136.2	151.7	157.0*
Total net ODA to landlocked developing countries ¹	11.4	16.6	23.2	22.6	24.4	
Total net ODA to least developed countries ¹	19.5	28.8	42.9	38.5	43.3	
Total net ODA to small island developing states ¹	3.0	3.0	6.5	3.8	3.4	

^{*}Preliminary data.

Note: The Development Assistance Committee (DAC) of the OECD measures the headline ODA data as of 2018 on a grant equivalent basis. See here for more details: http://www.oecd.org/dac/financing-sustainable-development/development-finance-standards/officialdevelopmentassistancedefinitionandcoverage.htm

Source: DAC Statistics database, 2021, The Organisation for Economic Co-operation and Development (OECD).

Target 17.3

Mobilize additional financial resources for developing countries from multiple sources

Indicator 17.3.1

Foreign direct investment, official development assistance and South-South cooperation as a proportion of gross national income

Foreign direct investment (FDI) inflows¹

(Millions of United States dollars)

Target 17.12

Realize timely implementation of duty-free and quota-free market access on a lasting basis for all least developed countries, consistent with World Trade Organisation decisions, including by ensuring that preferential rules of origin applicable to imports from least developed countries are transparent and simple, and contribute to facilitating market access

Indicator 17.12.1

Weighted average tariffs faced by developing countries, least developed countries and small island developing States

(a) Average tariff applied by developed countries on key products from developing countries, least developed countries, landlocked developing countries and small island developing States, under the Most-favoured-nation (MFN) status

Note: There is no established convention for the designation of "developed" and "developing" countries or areas in the United Nations system. In common practice, Japan in Asia, Canada and the United States in northern America, Australia and New Zealand in Oceania, and Europe with Israel and Cyprus are considered "developed" regions or areas. Until a definition of developing countries is agreed, aggregated data for this indicator will provisionally include all countries located in "developing regions" for the purposes of monitoring indicators related to "developing countries."

Target 17.18

By 2020, enhance capacity-building support to developing countries, including for least developed countries and small island developing States, to increase significantly the availability of high-quality, timely and reliable data disaggregated by income, gender, age, race, ethnicity, migratory status, disability, geographic location and other characteristics relevant in national contexts

Indicator 17.18.2

Number of countries that have national statistical legislation that complies with the Fundamental Principles of Official Statistics
